

# GUANGPU YI

Address ◇ No. 96, Jinzhai Road, Hefei, Anhui @USTC

Personal Website ◇ [home.ustc.edu.cn/~ygp](http://home.ustc.edu.cn/~ygp), [guangpuyi.github.io/Homepage](http://guangpuyi.github.io/Homepage)

E-mail ◇ [ygp@mail.ustc.edu.cn](mailto:ygp@mail.ustc.edu.cn)

## EDUCATION

---

M.S. Solid Geophysics, University of Science and Technology of China (Pursuing)	<i>2021.09 - Present</i>
B.S. Solid Geophysics, University of Science and Technology of China	<i>2017.09 - 2021.06</i>
The Middle School Attached To Nanchang University, Nanchang, Jiangxi Province	<i>2011.09 - 2017.06</i>
Primary School Affiliated To Nanchang University, Nanchang, Jiangxi Province	<i>2005.09 - 2011.06</i>

## RESEARCH INTERESTS

---

### LLSVPs

- LLSVP's formation and evolution, and its connection with CMB, slab, plume, supercontinent cycle
- What causes the difference between the two LLSVPs

### Plate Subduction

- Regional subduction, such as the slab tearing beneath South American
- What initiated subduction and keeps it; what's the final fate of subduction, trench and slabs

### Precambrian

- Tectonic regime in early Earth

### Geomagnetic Field Reversal

- Mysterious stuff

### Dynamics of Other Planets and Moons

- More interesting stuff

### Evolution of Human World

- Is there a good solution?

## HONORS AND AWARDS

---

<b>2020</b>	Outstanding Student Scholarship (Bronze Award)
<b>2019</b>	"Outstanding Individual" in the social practice activity of the Summer Vacation
<b>2017</b>	Outstanding Freshman Scholarship (Bronze Award)

## RESEARCH EXPERIENCES

---

<b>2019 - 2021</b>	Innovative Training Program for College Students    Tutor: Jinshui Huang Title: Research on Core-mantle Thermal Evolution and Magnetic Field Evolution of Planets
